## Washable Wallpaper

You will find in this new 1935 catalogue many patterns marked **WASHABLE**. This is one of the modern improvements in wallpaper.

To clean these **WASHABLE** papers, all one need do is use soap and water. A soft cloth should be used—**NEVER A BRUSH**—and, of course, care should be taken not to rub too long on one spot after the paper has been soaked. Finger marks, soot, grease, fly specks, dirt, dust or paste marks can be easily removed. In all cases, it is necessary to use ordinary care and avoid harsh rubbing.

## EMERALD FLORAL

### A DAINTY BEDROOM

**T**HE EMERALD FLORAL Pattern is a smart new wall covering designed for the decorating of bed rooms. While the background is green and is the most predominating color, this paper can well be used with any bedroom color scheme for there is a great variety of color in the flower design.

For a dainty unusual bedroom choose the Emerald Floral. It will be a real compliment to your home and will give splendid satisfaction. The colors are Fast to Light and this paper can be easily cleaned by wiping it off with a damp cloth for it is **WASHABLE**. The band border is  $3\frac{1}{4}$  inches wide.

## "Italian Marble"

**FOR KITCHEN AND BATHROOM**

**H**ERE is a wonderful opportunity to have a very unusual, attractive kitchen or bathroom. The "ITALIAN MARBLE" pattern with its striking marble effect and pretty blending of colors is an ideal paper for use on ceiling as well as the side wall. We urge you to use the "ITALIAN MARBLE" paper in this manner for it is a no-match pattern easy to hang and of a design and coloring that will not show the soil easily. **THIS IS A WASHABLE PAPER.**

Select this paper on our recommendation and use it as we suggest. You will be delighted with the wonderful results.

The band border is 2½ inches wide and will add the finishing touches to a most attractive kitchen or bathroom.

# How to find the Quantity of Wall Paper You Need

BY USING THE CHART TO THE RIGHT it is easy for you to determine the amount of wall paper you need. First, using a yardstick, tape measure, or ruler, find the distance around the room in feet. Then measure the height of your room from the floor or the top of the baseboard to the ceiling or moulding, as the case may be. Using these figures, refer to the table on this page to find the number of rolls you need for your room. For example, if you have found the distance around the room to be 48 feet, and the height 9 feet, look down the first column, which is for "distance around room in feet", until you reach 48, then go across to the column on the top of which is the height of your room. Deduct a single roll of side wall for every two openings. Continuing across the table on the same line until you reach the column "yards of border", and next to it, "single rolls of ceiling", you will find that this room will require 6 single rolls of ceiling and 17 yards of border.

WE WILL TRIM YOUR WALL PAPER FREE IF YOU DESIRE IT.  
STATE ON YOUR ORDER IF YOU WANT IT TRIMMED.

| WALL PAPER CHART  |   |       |        |        |        |                       |                                  |

Our wall paper is sold by the single roll as it is done the world over, and packed in double rolls to avoid waste in matching.

# Do Your Friends and Neighbors a FAVOR

**W**hen you have made your selection, and are through with this sample book, won't you kindly hand it to a friend or neighbor so as to help them also to make a saving on their wall paper? They will appreciate it and we will also appreciate your doing so.

Many Thanks

**ROBINSON'S**  
Titusville, Penna.
